## RECYCLED CASHMERE GRS

**Ecomanuel** ed **Ecowinter** sono filati soffici e lussuosi, frutto della vocazione ed attenzione di **PAPI FABIO** alla produzione di filati nobili e sostenibili. La produzione di questi filati comincia con una attenta selezione di fibre di puro cachemire rigenerato sia pre che post-consumer; fibre in parte colorate e ricavate da ritagli industriali di filati e maglie e trasformate secondo un processo produttivo semplificato per un minor consumo di acqua ed energia e una ridotta emissione di CO<sub>2</sub>.

**Ecomanuel** nasce dalla mischia intima di queste fibre di cachemire riciclate melangiate, con altre più lunghe di cachemire vergine provenienti dai migliori allevamenti cinesi; **Ecowinter** è il perfetto incontro tra le fibre di cachemire riciclato con le pregiate lane ultrafine provenienti da allevamenti etici ed eco-responsabili.

Il risultato sono 2 filati dalle eccellenti proprietà meccaniche e con una ottima riproducibilità dei colori.

**Ecomanuel** ed **Ecowinter** sono entrambi certificati **GRS** (Global Recycled Standard); La certificazione GRS garantisce la conformità e l'utilizzo responsabile e sostenibile delle fibre riciclate nel settore tessile. Il cachemire e la lana riprendono a vivere dando un contributo concreto all'ambiente senza compromessi in termini di qualità, stile e comfort.

Noi di **Papi Fabio** ne garantiamo lo stile e la qualità.

*Ecomanuel and Ecowinter are soft and luxurious yarns, as result of PAPI FABIO's vocation and attention to the production of noble and sustainable yarns.*

*The production of these yarns begins with a careful selection of pure regenerated cashmere fibers both pre and post-consumer; fibers partially dyed recovered from industrial yarn and knit cuttings, and transformed according to a simplified production process for lower water and energy consumption and reduced CO<sub>2</sub> emissions.*

*Ecomanuel comes from the intimate blend of melanges recycled cashmere fibers with longer fiber of virgin cashmere coming from the most reputable Chinese farms; Ecowinter is the perfect match between recycled cashmere fibers with precious ultrafine wools coming from ethical and eco-responsible farms.*

*The result is 2 yarns with excellent mechanical properties and excellent color reproducibility.*

*Ecomanuel and Ecowinter are both GRS (Global Recycled Standard) certified; the GRS certification guarantees the compliance and responsible and sustainable use of recycled fibers in the textile market. Cashmere and wool come back to life, offering a concrete contribution to the environment without compromising on quality, style and comfort.*

*We at PAPI FABIO guarantee its style and quality.*
