

Ecowinter Ecowinter Mouliné

RECYCLED CASHMERE GRS

Ecowinter è un filato soffice e lussuoso, frutto della vocazione ed attenzione di **PAPI FABIO** alla produzione di filati nobili e sostenibili. La produzione di questo filato comincia con una attenta selezione di fibre di puro cachemire rigenerato sia pre che post-consumer; fibre in parte colorate e ricavate da ritagli industriali di filati e maglie e trasformate secondo un processo produttivo semplificato per un minor consumo di acqua ed energia e una ridotta emissione di CO2.

Ecowinter è il perfetto incontro tra le fibre di cachemire riciclato con le pregiate lane “ultrafine” provenienti da allevamenti etici ed eco-responsabili.

E' un filato certificato **GRS** (Global Recycled Standard). La certificazione **GRS** garantisce la conformità e l'utilizzo responsabile e sostenibile delle fibre riciclate nel settore tessile.

Ecowinter è un filato nobile e sostenibile che non ammette compromessi in termini di qualità, stile e comfort.

Noi di **Papi Fabio** ne garantiamo lo stile e la qualità.

***Ecowinter** is a soft and luxurious yarn, as result of **PAPI FABIO's** vocation and attention to the production of noble and sustainable yarns. The production of this yarn begins with a careful selection of pure regenerated cashmere fibers both pre and post-consumer; fibers partially dyed recovered from industrial yarn and knit cuttings, and transformed according to a simplified production process for lower water and energy consumption and reduced CO2 emissions.*

***Ecowinter** is the perfect match between recycled cashmere fibers with precious “ultrafine” wools coming from ethical and eco-responsible farms.*

*It's a **GRS** (Global Recycled Standard) certified yarn; the **GRS** certification guarantees the compliance and responsible and sustainable use of recycled fibers in the textile market.*

***Ecowinter** is a noble and sustainable yarn without compromising on quality, style and comfort.*

*We at **PAPI FABIO** guarantee its style and quality.*
